

It's your choice.

NYSEG customers can choose to purchase their natural gas supply from NYSEG or a supplier other than NYSEG (also known as an energy services company or ESCO). With any supplier you choose, NYSEG will continue to deliver your natural gas safely and reliably.

Visit nyseg.com/Choice to learn more and for a list of approved natural gas suppliers.

You can also find more information at the New York State Public Service Commission's Power to Choose website at: documents.dps.ny.gov/PTC.

When choosing a supplier, consider their answers to these questions:

- What is your charge per therm for natural gas supply?
- Is this a fixed charge or does it vary depending on market price?
- What is the length of the agreement or contract?
- Can I switch or cancel at any time?
- Is there a security deposit, cancellation fee or other fees?
- Do you have any incentives for signing up with you?
- Do you guarantee savings?
- When will I be billed for energy supply and are your charges included in my NYSEG bill?
- What procedures are in place if I have question or a complaint with you as my supplier?
