Highlighted speeds are maximum speeds of Hughes Network Systems (HNS) on EarthLink systems.

The HughesNet™ service offers are designed to deliver download speeds of 20 Mbps and upload speeds of 1 Mbps, but individual customer may experience different speeds at different times of the day. Speeds will continue good as long as you are not guaranteed and may vary based on a variety of factors, including the configuration of your computer, the number of concurrent users, network congestion, the capabilities and capacity of the retailer's proxy gateway, network management practices or demand, available bandwidth. When you connect to HughesNet service using DSL, your experience will vary depending on your proximity to the DSL processor and the speed of the DSL.

*Speeds may vary depending on distance, line quality and network conditions. Actual speeds subject to availability. Some restrictions may be in place on certain services. Download fees, taxes and other fees are not shown here.

**Speed comparison based on 12 Mbps DSL.
